Monthly comment

In January, Partners Group Listed Investments SICAV – Listed Private Equity outperformed broader equity markets. All sectors contributed positively to the Funds` performance. Hereby, asset managers generated the best returns on the back of a favorable fund raising environment, a high level of investment activity as well as a range of successful exits. Furthermore, the market expects that the alternative asset managers will be positively impacted by the new US government in the United States.

Blackstone had been this month`s best performing asset after reporting positive quarterly results. The company profited from higher net inflows and their asset under management increased by USD 17 billion in the fourth quarter to a total of USD 370 billion. Also performance fees have contributed significantly following a strong development of several investments. Thus, the company`s quarterly profit has increased by 86% compared to last year. Market participants are further expecting a positive development, particularly in the light of USD 97 billion of uncommitted capital.

Also Deutsche Beteiligungs AG published their annual results. The company was able to increase its profit to EUR 50.2 million, achieved a return on equity of 16% and announced a dividend-increase of 20% compared to the previous year. The acquisition of Dieter Braun, a German automotive supplier, completed the portfolio of DBAG Fund VI. Hence the successor fund DBAG Fund VII, which closed last year at a fund size of over EUR 1 billion has been able to start its investment activity.
