Monthly comment

In October, Partners Group Listed Investments SICAV – Listed Private Equity recorded another positive month, increasing the YTD performance to 35%. In a strong market environment driven by optimism about a trade deal between China and the US as well as the Federal Reserve's third interest rate cut this year, alternative asset managers and fund-of-funds developed favorably in the portfolio. For example, the UK-based fund-of-fund ICG Enterprise Trust convinced its investors in October as the company reported strong results for the six months ending in September with an increased NAV by 12.4% and the top 30 holdings having grown EBITDA by more than 16% on average. In addition, the company exited investments at an average uplift of 33% to NAV during the reporting period.

Furthermore, the direct investment company Deutsche Beteiligungs AG performed well after announcing the sale of its minority stake in Inexio. The company operates a fiber optic network in Germany, spanning 6'500km and connecting 110'000 customers as well as 6'000 businesses. Since Deutsche Beteiligungs AG's investment in 2013, Inexio has quintupled its customer base and grown sales as well as earnings by more than 20% annually. The company was acquired by EQT Infrastructure IV for an enterprise value of approximately EUR 1.0bn.

On the other hand, the French listed direct investment company Eurazeo suffered from a one-time effect. Tikehau Capital, once one of the largest shareholders, sold its stake in Eurazeo, resulting in an increased share supply.
