Partners Group has been a signatory since 2008 of the United Nations Principles for Responsible Investment and the Fund follows an SRI approach, evaluating each investment opportunity in terms of environmental, social and governance standards.

Monthly comment

In June, Partners Group Listed Investments SICAV – Listed Private Equity recorded a positive performance. After two months of continuous recovery, the markets smoothed, led by concerns over a second wave of the COVID-19 and the possibility of further lockdowns. In the reporting period, especially alternative asset managers developed favorably.

For example, the Swedish alternative asset manager EQT was one of the top performers. Management announced the sale of its private debt business segment with around EUR 4bn in assets under management to Bridgepoint. Since inception, the business segment has raised over EUR 7bn of capital for the three complementary strategies, Special Situations, Direct Lending and Senior Debt and invested in over 180 companies. In addition, EQT has communicated the target size of its flagship fund, EQT Infrastructure V at EUR 12.5bn versus EUR 9bn for its predecessor.

On the other hand, the Canadian direct investment company ONEX developed negatively in June. The performance was driven by the portfolio company, Emerald Holding, an operator of large business-to-business trade shows in the US. The company was hit hard by COVID-19 and required a capital injection of USD 400m to repay the outstanding debt under its credit facility, as well as to finance general corporate purposes including organic growth initiatives.

Finally, HarbourVest Global Private Equity (HVPE) increased in value as the company reported its monthly portfolio valuation, which for the first-time includes the impact of COVID-19. The published estimated NAV decreased by 6%, which was much better than expected. Furthermore, management assured investors that most portfolio companies are only moderately impacted by COVID-19.
