## Monthly comment

In July, Partners Group Listed Investments SICAV – Listed Private Equity continued to recover since the lows in March. The month was characterized by weak economic data in both the US and Europe, as well as new COVID-19 outbreaks in Europe. Against this backdrop the Fund performed slightly positive. The best performing companies during the month were alternative asset managers, which reported Q2 figures above expectations and continue to benefit from strong fund raising.

One of the best performers was Apax Global Alpha, a direct investment company focusing on growth firms. The vehicle primarily invests in Apax's private equity funds, which increased in value. The funds profited from higher exposure to technology related sectors, such as online marketplaces and software, which have been less impacted by COVID-19 and show a long-term structural growth.

On the other hand, the French direct investment company Wendel developed negatively in July. The largest portfolio company, Bureau Veritas, a provider of inspection, testing and certification services, reported its first-half 2020 results. Organic revenue declined by 9.0% in H1 2020, mainly driven by the business unit consumer products, which went down by 21% due to the economic lockdown and the challenging situation of US retailers.

Finally, another top performer was the US alternative asset manager KKR. The company expanded into the insurance business and announced the acquisition of Global Atlantic, an annuities and life insurance provider with more than 2 million policyholders and USD 70bn of AUM. The acquisition strengthens KKR's permanent capital base and is expected to increase annual management fees in two years by around USD 200m.
