Monthly comment

In October, Partners Group Listed Investments – Listed Private Equity performed strongly and recorded one of the best months since inception, supported by strong quarterly results exceeding expectations and a general positive market sentiment. In the reporting period, all segments contributed positively with alternative asset managers being again the best performing sector, on the back of a favourable fundraising environment, strong deployment activity and increased realizations.

One of the best performing companies within the portfolio was the US asset manager Apollo Global Management.

The company increased fee-related earnings by 18% over the last twelve months and announced an optimistic outlook targeting fee-related earnings growth of 14% per year and a doubling of AUM until 2026. Besides the insurance segment, management became more positive on retail clients and expects this segment to contribute one-fourth of the projected AUM growth.

One of the very few negative contributors was Wendel, a French direct investment company. Management listed one of its core holdings, IHS Towers, a leading owner and operator of macro towers, but was surprised by low investor demand. The IPO was priced on the lower end of the price range and since the listing, the stock dropped by 22%. On a positive note, the remaining portfolio of Wendel posted moderately positive results. NAV and revenue increased by 16% respectively 12% year-to-date.

Finally, the US asset manager Carlyle Group reported results and exceeded investor's expectations. Fee-related earnings increased 28% year-over-year, driven by credit, in particular Collateralized Loan Obligations. Moreover, fundraising was strong and driven by the buyout flagship fund. The company raised USD 22bn in Q3 2021, of which USD 16bn came from the first close of its US buyout fund VIII. Lastly, realizations were high with net realized carry of USD 540m for the third quarter. Management is very confident and intends to further expand the platform, seed new strategies as well as potentially look at M&A.
