Monthly comment

Partners Group Listed Investments SICAV – Listed Private Equity achieved a significant value gain in March and exceeded global equity markets.

The strongest performing sectors were holding companies and asset managers. The latter profited from the positive fund raising environment and a high deal activity. Ares Management announced its plan to close the fifth flagship fund Ares Opportunities V in the next quarter beating its USD 6.5 billion target with USD 6.8 billion, USD 300 million above the initial target. Furthermore KKR profited from its high deal activity in March. The company was able to use its high cash reserves to capture several opportunities in the market.

Also in March, HgCapital published its results for 2015. The company increased its dividend by 12.6% and reported a NAV growth of 14.1% for the period as well as an additional 2.5% increase over the first two months this year. These results are mainly due to the good performance of HgCapital's underlying portfolios. The top 20 investments could on average report an EBITDA growth of 12% while revenues went up 10% compared to the previous year.

A favorable development was also achieved by business development companies (BDCs) on the back of positive results that were reported over the course of the previous quarter, which improved the perception of BDCs in the market.
