Monthly comment

In May, Partners Group Listed Investments SICAV – Listed Private Equity gained in value and further increased its outperformance against the broader equity markets since the beginning of the year. In particular, European direct investment companies convinced its investors with the publication of positive results. Meanwhile, Business Development Companies (BDCs) contributed negatively to the Fund performance on the back of the political uncertainty in the US and a more intense competition for promising investment opportunities.

Deutsche Beteiligungs AG expects net income to increase by 20% this year driven by positive exit results. Further, the new DBAG Fund VII with committed capital of EUR 1 billion has started its investment period and should contribute significantly to the management fees.

Also British alternative asset manager Intermediate Capital reported favorable results for the period of 2016/2017 and exceeded market expectations. The company increased its dividend and profit before tax by 23% and 59% respectively compared to the previous year.

Another positive highlight was the annual results of the British private equity company 3i Group. The company achieved 36% growth in revenue and increased the NAV by 30% due to favorable developments in their portfolio companies Action, Scandlines and ATESTO.
