## Monthly comment

In June, Partners Group Listed Investments SICAV – Listed Private Equity recorded another strong month and further increased in value. Despite some concerns around rising inflation, with the Fed now forecasting interest rate hikes in 2023 rather than in 2024, market sentiment remained favourable on the back of COVID-19 restrictions easing across the world and strong corporate earnings. The Listed Private Equity sector continued to outperform the broader market, driven by alternative asset managers and business development companies.

One of the top performers this month was the British alternative asset manager Intermediate Capital Group. The company reported annual results for the fiscal year ending 31 March 2021 and convinced investors with strong fundraising of more than USD 10bn. Investment activity remained high and both deployments and realizations increased by 70% compared to the previous year. In addition, management increased the dividend by 10%, making this the 11th consecutive year of dividend increases.

Another strong performer was the British direct investment company HgCapital Trust. The company announced the sale of Allocate, which provides workforce and people management software-as-a-service (SaaS). The investment has performed well and is expected to be sold at a 21% uplift to the carrying value. This exit further increases cash to approximately 15% of the market cap and positions HgCapital more defensively.

Finally, the Swiss based direct investment company HBM Healthcare performed well and grew NAV by 7%. Management announced the IPO of two portfolio companies (Ambrx Biopharma and Monte Rosa Therapeutics), which are amongst the largest portfolio holdings. In addition, management expects a third IPO, as the portfolio company Valo Health intends go public through a SPAC deal.
