Monthly comment

Global equity markets performed negatively in September following growing investor concerns around rising interest rates and slowing growth. In this volatile environment, the Partners Group Listed Investments SICAV – Listed Private Equity posted, in line with the broader equity markets, negative performance. Despite the supportive Q3 earnings season, all sectors reported a muted performance driven by weak market sentiment.

On a portfolio level, HarbourVest was amongst the top performers. The private equity fund-of-funds published its latest results, with the NAV estimate for the month of August declining just by 1%. Both investment activity and distributions remained healthy, with a total of 25 M&A transactions and IPOs across its underlying portfolio during the month.

Finally, the UK alternative asset manager, Petershill Partners was among the worst performers despite solid fundamental progress. The company published the H1 2022 results, with both fee related earnings and AuM increasing by 18% and 34% year-over-year. Management continues to see good AuM growth opportunities and updated the 2022 guidance for organic growth in fee paying AuM to USD 50 billion from their previously communicated USD 45 billion.
