Monthly comment

Driven by the Brexit referendum, global markets witnessed an increased volatility in June. This negative development on the European markets also had an impact on several portfolio companies of Partners Group Listed Investments SICAV – Listed Private Equity.

Despite the negative market sentiment in Europe, business development companies (BDCs) which are exclusively focusing on providing debt to US companies, developed positively over the month. BDCs continue to provide stable dividend payments and hence contributed positively to the Fund's performance.

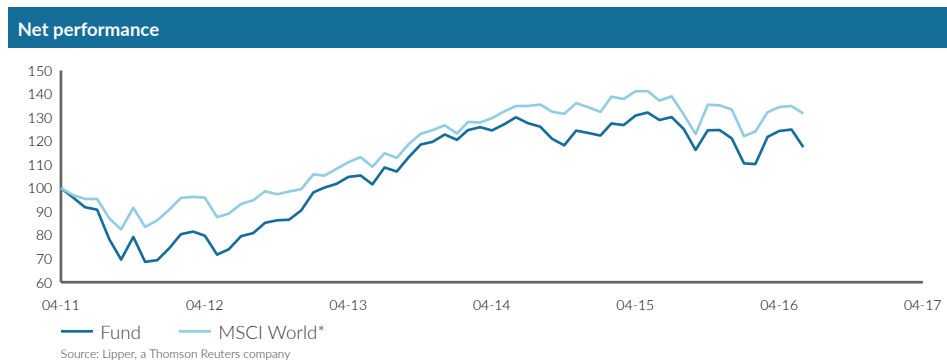

On the other side of the spectrum, the share price of the British asset manager Intermediate Capital was hit heavily after the Brexit vote, mainly triggered by the negative market sentiment in the UK. However, regarding Intermediate's underlying companies, the Brexit referendum should only have a minor impact on the company as the majority of investments are based outside of Britain.

Last month, Partners Group Listed Investments SICAV – Listed Private Equity invested in Schouw & Co. The Danish holding company invests predominantly in leading Danish industrial companies with a long-term investment horizon. Schouw has generated a strong share price performance during the last 25 years and has shown the potential to generate further growth.
