

Partners Group Listed Investments SICAV - Listed Income CHF (P - Acc.)

Monthly report as of 30 June 2017

Fund objectives

Partners Group Listed Investments SICAV - Listed Income is an open-end investment fund incorporated in Luxembourg. The Fund's objective is to invest in infrastructure, real estate and private debt companies with an attractive, sustainable dividend yield and inflation-linked cash-flows. The focus is on securities which offer an above-average dividend yield as well as long-term capital growth.

Monthly comment

Partners Group Listed Investments SICAV - Listed Income developed positively over the last months, but had to record a decline in June. However, since beginning of the year, the Fund developed in a stable manner, resulting in a dividend yield of 5.7% while maintaining a low volatility.

Business Development Companies (BDCs) developed favorably during the reporting period. Hereby, the US-based BDC Fifth Street Finance was this month's best performer. Reportedly, the Californian investment management firm Oaktree Capital, is in negotiations to acquire the external investment manager of Fifth Street Finance.

On the other hand, European infrastructure operators contributed negatively to the Fund's performance. For example, National Grid, a British electricity and gas utility company, recorded a negative development over the reporting period. The company's share price was, among others, impacted by the market uncertainty caused by the UK elections and the ongoing Brexit discussions. However, as National Grid is operating in a highly regulated environment which can be regarded as being independent of demand, we expect the long term impact of the Brexit-discussions to be negligible.

Sponda, the Finland-based real estate investment company, recorded the largest value gain. The company profited from the takeover offer of EUR 1.8 billion by Blackstone. This results in a premium of 20.7% of the previous days' share price. The Fund decided to sell its stake in the company after the announcement.
