## Monthly comment

Partners Group Listed Investments SICAV – Listed Income showed a sound performance in March. Driven by the publication of pleasant annual results and the generally friendly market environment, infrastructure assets developed especially well during the reporting month. Private equity and real estate assets had a rather neutral impact on March's performance.

Veolia Environnement, the French water and waste operator, was the best performer in March. For instance, a wastewater contract with the US-based city Gloucester has been extended by eight years. Furthermore, the company has received the regulator's approval to increase consumer water prices in Bulgaria by 18%. Also, Veolia is well positioned to profit from the energy and environment proposals of the candidates in the French presidential election.

The French toll road operator Vinci has also profited from the prospect that a newly elected French government may reduce corporate taxes. The current government already announced the intention to reduce corporate tax from 33% to 28% from 2020 onwards.

Further, Sydney Airport performed profitably during the reporting period. The Australian airport operator benefitted from an increasing number of passengers. Mainly driven by travelers from China, the passenger volume rose by 8.3% compared to the same period of the previous year.
