

Partners Group Listed Investments SICAV - Multi Asset Income CHF (P - Acc.)

Monthly report as of 31 August 2021

Fund objectives

Partners Group Listed Investments SICAV – Multi Asset Income is an open-end investment fund incorporated in Luxembourg. The Fund's objective is to invest in infrastructure, real estate and private debt companies with an attractive, sustainable dividend yield and inflation-linked cash-flows. The focus is on securities which offer an above-average dividend yield as well as long-term capital growth. Partners Group has been a signatory since 2008 of the United Nations Principles for Responsible Investment and the Fund follows an SRI approach, evaluating each investment opportunity in terms of environmental, social and governance standards.

Monthly comment

In August, Partners Group Listed Investments SICAV – Multi Asset Income recorded a further value gain, mainly due to its allocation to Listed Private Equity and Real Estate, which benefited from positive market sentiment. Global equities delivered strong returns in August, largely supported by Fed's dovish statements on the trajectory of the rise in interest rates. In addition, macro-economic environment remained favourable with reopening of developed markets and strong economic data despite the surge in the Delta variant.

One of the best performing company this month was the business development company Oaktree Speciality Lending, which reported good quarterly results. NAV per share further increased and is now 9% above FY2019. The portfolio remained very defensive with no non-accruals and net investment income increased by 58% year-over-year, driven by strong originations. Lastly, the dividend was increased by 12%, which is the fifth consecutive quarter with a dividend increase.

Finally, Orsted, the global leader in developing, constructing, and managing offshore wind farms was among the best performers in August. The share price rose sharply on the back of a few positive news. The South Fork Wind Farm that Orsted is seeking to build on the east coast of the US received a final environmental impact statement, paving the way for possible construction in September. Furthermore, the 6th IPCC (Intergovernmental Panel on Climate Change) report sent a strong warning signal, concluding that the world will not be able to limit global warming unless there are immediate and large-scale reductions in greenhouse gas emission. Such findings generated an increasing interest in renewable stocks, which benefitted Orsted.
