## Monthly comment

In April, Partners Group Listed Investments SICAV - Listed Income developed positively and continued to extend its outperformance against the broad equity market since the beginning of the year. European equities in particular reacted positively to the first round results of the presidential election in France. French portfolio companies such as Eurocommercial, Vinci and Eutelsat continued to benefit from the prospects of potential tax cuts by the new government.

The share price of Hong Kong-based infrastructure provider Cheung Kong Infrastructure also developed positively. The company received approval from the Australian government for the acquisition of Duet Group. With the takeover of the owner of energy utility assets, listed on the Australian Stock Exchange (ASX), Cheung Kong opens up a leading presence in the Western Australian market.

The alternative asset manager Apollo Global Management also convinced investors during the reporting month of its active enhancement of the investment platform. Apollo's portfolio company Athene Holding announced its intention to acquire Fidelity & Guarantee Life, another insurance company. The potential of Apollo's established credit platform to be further expanded, contributed to the increase in value in April.
