

Partners Group Listed Investments SICAV - Multi Asset Income EUR (P - Dist.)

Monthly report as of 30 November 2018

Fund objectives

Partners Group Listed Investments SICAV – Multi Asset Income is an open-end investment fund incorporated in Luxembourg. The Fund's objective is to invest in infrastructure, real estate and private debt companies with an attractive, sustainable dividend yield and inflation-linked cash-flows. The focus is on securities which offer an above-average dividend yield as well as long-term capital growth.

Monthly comment

In November, Partners Group Listed Investments SICAV – Multi Asset Income recorded a positive performance. Following its solid performance last month, when global equity markets fell sharply, the fund performed in line with the recovery of the broad equity market in November.

The alternative asset manager Ares Management achieved the highest increase in value during the reporting period and convinced its investors with the publication of the quarterly report. The company increased its fee-paying assets by 9.6% to USD 79.4 billion compared to the same period last year and has further growth potential with USD 21.7 billion in non-fee-paying assets. In addition, the Company successfully completed the transformation of its legal form from a limited partnership to a C-Corporation. This allows a broader investor base, such as certain index funds, to invest in the shares of Ares Management.

At the end of November, the share price of the Californian electric utility company Edison International was severely impacted by the California forest fires. The company operates in an area where the Woolsey fire has been reported. Consequently, investors expect significant infrastructure damage and compensation payments. A positive factor for Edison's shareholders is that the company has a special forest fire insurance.

Positive to mention is the increase in value of the Hong Kong-based real estate operator LINK REIT, which is largely attributable to the published half-year results and the optimistic forecast for the coming year. The main performance drivers were the strong like-for-like sales growth in Hong Kong and the successful expansion in mainland China.
