## Monthly comment

Partners Group Listed Investments SICAV – Listed Income showed a stable development in May. This year so far, the Fund achieved a significant outperformance with a lower volatility compared to the broader equity market.

Over the past month, the majority of real estate operators contributed favorably. Mid-America; an operator of multifamily homes in numerous southern US states published quarterly results which exceeded market expectations. The like-for-like net operating income grew 7.1% quarter over quarter and the company also increased its full-year cash flow guidance.

In contrast, French satellite operator Eutelsat contributed negatively to the Account's performance. The company announced results which were mostly in line with consensus, but cut guidance for the two upcoming years.

The largest value gain was achieved by the Australian electricity distributor Spark Infrastructure. The company benefited from the regulatory review of the electricity distribution business in Victoria, which has a positive impact on the visibility of future cash flows. Also in May, Spark announced the divestment of an 8% stake in its competitor DUET Group for AUD 305 million, which was well received in the market.
