Monthly comment

In February, the broad equity market recorded an increased volatility and performed negatively. This development also influenced Partners Group Listed Investments SICAV – Multi Asset Income and led to a decline in value over the course of February. Negative contributors to the funds' performance were the retail operator (REITs) as well as some infrastructure companies that were affected by the current sentiment on the stock market, even though numerous of these companies published positive results during the reporting period. The Australian electricity distributor Spark Infrastructure, for example, exceeded the expectations of their investors with the publication of its quarterly figures and was upgraded by two analysts as a result.

On the other hand, the business development company, Oaktree Specialty Lending Corp performed unfavorably in the reporting month, mainly due to the ongoing portfolio repositioning. As a result, the company's NAV declined from USD 6.16 to USD 5.81 per share. From the asset manager's perspective, Oaktree Specialty Lending Corp is attractively valued, especially since the new management is making progress with the repositioning of the portfolio.

Meanwhile, the alternative asset manager Ares Management convinced its investors with the publication of the quarterly report. The company was able to increase its assets under management by 19.8% to USD 72.5 billion and its quarterly profits by 37% compared to the previous year period.
