Partners Group Listed Investments SICAV – Multi Asset Income is an open-end investment fund incorporated in Luxembourg. Monthly comment

In October, the broader equity market developed negatively and displayed an increased volatility. The market reacted anxious to the ongoing tension between the US and China on trades, as well as to geopolitical uncertainties in Italy and "Brexit". In this market environment Partners Group Listed Investments SICAV – Multi Asset Income benefited from its defensive and broad diversified portfolio and developed more stable than the overall market.

Partners Group Listed Investments SICAV – Multi Asset Income was able to prove its low volatility with its asset classes Infrastructure, Real Estate and Private Equity. Especially infrastructure assets provided stable cash flows as they behave relatively independent of economic conditions and hence developed favorably compared to the global stock market.

On the other hand, US alternative asset managers contributed negatively to the fund's performance during the reporting period. Investors were concerned about lower performance-related fees due to turbulences in the financial markets and realized a part of their profits. Regardless, the alternative asset managers published positive quarterly reports.
