## Monthly comment

In July, the Partners Group Listed Investments SICAV - Multi Asset Income continued to increase in value. Overall, the broader equity markets rose strongly in July on the back of a series of dovish comments on rates by the Fed and ECB further stimulating the global economy. One of the strongest companies in the portfolio this month was Castellum AB. The Swedish real-estate company continued to post a healthy set of results in the first half year, largely driven by a further continued yield contraction in its key cities in Sweden due to the lack of supply across all categories. Furthermore, the warehouse and logistics market, which entails roughly 15% of the company's portfolio, delivered positive results as the current growth in e-commerce leads to rising rents of prime logistics locations. This is particularly so in semi-central locations with good means of transportation and sorting yards. However, the North American pipeline operator Enbridge decreased in value partially driven by the proposal of the company to re-route its Line 5 oil pipeline around the Bad River Reservation after legal actions by a Native American tribe in Wisconsin. As the potential re-routing would increase construction costs, the company's stock decreased in value during the reporting period. Finally, Highwoods Properties reported positive Q2 earnings in July. Better than expected funds from operations (FFO) as well as solid leasing volumes, despite a decline in the occupancy rate, were the highlights of the financial report.
