## Monthly comment

In September, the Partners Group Listed Investments SICAV – Multi Asset Income continued to increase in value while global equity markets recovered sharply after the fall in the previous month. Equity markets were impacted by two opposing events. Firstly, the largest oil producer in the world, Saudi Aramco, reported an attack at one of its main refineries reducing global oil supplies by roughly 5%. Consequently, the spike in oil prices had a generally negative impact on equity markets. Secondly, the interest rate cut by the US Fed together with the ECB's plan to resume its bond purchase programme, led to the positive development of global equities.

During the reporting period, Unibail-Rodamco and Annaly Capital Management increased in value. Both real estate companies benefitted from strong capital inflow due to their attractive valuations.

Meanwhile, Spark Infrastructure Group contributed negatively to the Fund's performance. Despite the latest financial results being in line with consensus, Australian utility companies, generally speaking, have been facing regulatory resetting risks in the near future, which could result in lower return and dividends.

Finally, Senior Housing Properties Trust was a strong performer in September. The REIT reported financial results for Q2 2019, which were largely in-line with expectations and revenues slightly being ahead of consensus. An improvement in the balance between the supply and demand for senior housing in the US further supported the rise.
