### Monthly comment

In December, the Partners Group Listed Investments SICAV - Multi Asset Income had a muted performance. During the month many countries rolled out more strict lockdown measures, however, some good news including the Brexit deal as well as the U.S. stimulus package helped the investors' sentiment. Within the portfolio, listed private equity assets continued to be the best performers, leveraging their high beta nature and the prevailing risk-off sentiment among investors.

Towards the end of the month the Fund invested in Orsted. The company is a global leader in developing, constructing, and managing offshore wind farms. Orsted performed positively driven by the stimulus package signed in the U.S., which includes the support for the renewable sector including extensions of tax credits for wind and solar assets. Furthermore, Orsted has agreed to sell a stake in its Taiwanese assets and signed a PPA with Amazon in Furnee

Elsewhere, toll road operators were overall weak. There was no company specific news, but two European operators in the portfolio were affected by an increase in the number of new COVID-19 cases, as well as more strict travel restrictions. Meanwhile, Shenzhen Expressway was affected by lockdowns in a few cities in China, aggravating the sentiment again.

Finally, Annaly Capital Management has been amongst the top performers this month. There was no company specific news, but the U.S. stimulus package is expected to further stabilize the funding costs and leave some room for an increase in dividends in the future. In addition, continued strength in the residential housing market drove the sector to deliver a strong return overall across 4Q 2020.
